

TRN Newsletter

Connecting Teachers & Researchers Across Europe

<https://eu4dual.education/>

EDITORIAL

Welcome to the fourth issue of the EU4Dual Teachers and Researchers Network newsletter. As the new academic year gets underway, this edition is all about getting involved. We highlight new ways to teach and collaborate through EU4Dual MicroCredentials, including an upcoming TRN workshop for academic staff and a look back at the joint Spring School on Sustainable Engineering. For our research community, the next Young Researchers' School is coming up in November at ESTIA, bringing together early-career researchers for a week of exchange, workshops and research presentations. We hope you find something in this issue that sparks an idea, a new connection, or simply a reason to get involved.

On behalf of the Editorial Team,

Mia Maslač, MA (PAR University of Applied Sciences)

FROM MICROCREDENTIAL TO INTERNATIONAL SPRING SCHOOL

In May, 20 students from ESTIA, DHBW, Mondragon University and the Polytechnic University of Portalegre came together in Bidart for a joint Spring School on Sustainable Engineering. The programme showed how MicroCredentials can grow into collaborative international learning experiences, bringing together students and lecturers from across the Alliance.

Have an idea for a joint Spring, Summer or Winter School? We would love to hear from you.

60+ MicroCredentials now available

The EU4Dual MicroCredential Catalogue now features more than 60 courses across a wide range of disciplines. Academic staff can also use the catalogue to share their own MicroCredentials, reach learners across the Alliance and connect with colleagues from partner universities.

LOOKING BACK: TRN Research Collaboration Session

43 participants from 8 countries joined the TRN online session on 3 September. Led by Virág Mihálka and Zigor Azpilgain Balerdi, the session explored research collaboration opportunities across EU4Dual, connecting researchers across partner universities and encouraging new inter-university collaborations.

Interested in connecting? Reach out to your local TRN Lead.

TRN Webinar: Collaborate, Share Expertise & Teach Across the Alliance

20 October 2026 | 14:00–15:00 CEST | Online via Teams

Interested in developing or teaching a MicroCredential with EU4Dual partners? Join this practical session to discover how academic staff can contribute their expertise, collaborate with colleagues and industry, and co-create new learning opportunities across the Alliance. The workshop will also showcase successful examples and leave time for questions, ideas and potential new collaborations.
